

YALE LOCKMASTER 21

SENSCHECK™ COMPATIBLE

Designed, developed and tested in the UK to Yale's exacting standards, the Yale Lockmaster 21 faultlessly delivers high-performance security, improved ease of use and an impressive service life. Complementing a wide range of applications and materials including aluminium, PVC-U, timber and composite doors, the Lockmaster 21 offers fantastic versatility.

FEATURES & SPECIFICATIONS

- Hook and pin unit positioned within 100mm of the pre-compression rollers.
- Pre-compression rollers designed to assist with draught and weatherproofing.
- Sprung and unsprung centre cases to suit front and back door applications with centre anti-separation hook as standard.
- Easy to use push-in latch snib feature to prevent accidental lock-outs.
- Plus, reversible latch for easy handing.
- PAS 24 accredited.

YALE LOCKMASTER 21

SENSCHECK™ COMPATIBLE

SENSCHECK™ COMPATIBLE

The Yale SensCheck™ Sensors are fully compatible with Yale's Lockmaster 21. Designed for advanced home security, these sensors empower homeowners with real-time monitoring of their doors' status from anywhere, at any time, through the Yale Home App. Users receive instant notifications and tamper alerts directly to their smart devices, along with chime notifications whenever the door status changes. This ensures comprehensive and proactive home security management.

Yale SensCheck™ Sensors are simple to install, easy to set up and control through the Yale Home App.

Easy Set-up

Wireless smart connectivity

Geo-fencing security alerts

Real-time notifications of status changes

Choice of fully or part armed

Integrates with smart technology around your home
